F. G. Logan, of Chicago, wired W. W. Cowen yenterday: A feature illustrating the demand, especially Continental, was the decrease in the amount afoat, in spite of the very large world's shipments for the leat few weeks. After the action of congress last night, it would seem nothing can prevent war. We see nothing builtsh in the long run if hostilities are begun. General prosperity cannot, in our epinion, be assisted by the waste and destruction of property, and the higher rates for money that will necessarily follow.

ion, be assisted by the waste and destruction of property, and the higher rates for money that will necessarily follow.

Of the wheat exported from the United States in the week ending April 8, the United Kingdom got 1,358,396 bushels, French ports 258,090 bushels, other Continental ports 257,094 bushels and all other points 160,398 bushels. Of the corn, 1,574,798 bushels went to the United Kingdom, 5,590 bushels to Prance, 2,277,542 bushels to other Continental ports and 29,-212 bushels to all other ports. Of flour, the United Kingdom got 374,290 barrels, France 4,770 barrels, other Continental ports 38,525 barrels and all the other ports 25,625 barrels.

Percy F, Lucas is back from Rio Arriba county, N. M., whither he went to investigate some sand heavily charged with gold, samples of corn, wheat and flour, all raised and made by the natives, and raised on irrigated land. The corn is smaller than ours and the grains round and flinty. Its prevailing color is red and blue black, with some pure white. It is very flinty, more like popeurs than the common corn of the States. The wheat is white and the berry large and plump. The flour is unbolled, but good of its kind.

Dry Goods.

New York, April 12.—There is no change in the market for dry goods. The demand is slow in all divisions of the cetton goods market as well as in woolen goods. The uncertainty of buyers is more marked than ever. War talk is frequent, and takes the place of trading. The demands for all grades of staple cotton is of such a character that sellers have no difficulty in handling it. There are a few calls for goods to be delivered quickly. Export goods are slightly more general in request. Print cloths are still quoted at 2c, but trading is very duil. Prints are still very quiet and weak.

NEW PACKING RECORD MADE THIS YEAR BY WESTERN PACKERS.

The Year's Increase Was Two and One-half Millions Over the Best Previous Record-Scare-

ity of Hogs Now.

summed up by the Cincinnati Price Current, makes

The past year's pork packing in the West, as summed up by the Cincinnati Price Current, makes a remarkable showing. It says:

"The past year makes a new record in the number of hogs killed by Western packers. This applies to both the summer and winter divisions of the year—the number exceeding the previous year's record, which was then the highest, by 1,700,000; the winter-season showing a gain of Dai, 700,000; the winter-season showing a gain of Dai, The year's outlay for hogs is also somewhat in excess of the previous high point, reached in 1800-31. The year's outlay for hogs is also somewhat in excess of the previous high record.

"The accompanying detailed exhibits show the past winter to have increased 1,400,000 hogs, compared with the preceding winter, and to have increased 1,700,000 in the summer season—making the year's gain 3,172,000 hogs, in Western killings, compared with the preceding year, and 2,880,000 in cucess of the greatest annual number previously.

"For the winter season the average weight of hogs was decreased 2.45 pounds per head—the summer average heig less than one pound below that of the preceding year. The average yield of lard the post was 15.31 per cent, compared with 15.00 the preceding year. For the summer season the average was 15.31 per cent, compared with 15.00 the preceding year. For the summer season the average was 15.31 per cent, compared with 15.00 the preceding year. For the summer season the average was 15.31 per cent, compared with 15.00 the preceding year. For the summer season the average was 15.31 per cent, or part of the particular time in the year does not mean a smaller than the particular time in the year does not mean a smaller actual supply for the year's alsughtering. The influence of plentifulness and rheapness of corn in enlarging the supply of hogs is well illustrated in the records of recent years.

"It was to be expected that, with the decided enlargement in production the past year, there would be an increase, however, is in mears, and not in lard—the ver Southern mares and horses. 15 6eg 23 60

The Northwest cattle interest is in good shape. Said Eugene Rust, traffic manager of the stock yards, yesterday, who is just back from a trip through Wroming. Utah and South Dakota. He says cattle came through the winter in better condition than fee years. Grass promises to be early, and the outlook is bright for the cattlemen. The number of cattle to come to market, however, will be 12 per cent short. No she cattle selling, ranchmen saving them all for breeding. A good many cattle from Idaho, Ctah. Novada and Gregon are being taken Into Kansas for feeding, and a good many Northwest cattle will reach the Kansas City market in this way.
